QUALITY – THE MAGAZINE ABOUT THE CULTURE OF THE THINGS THAT SURROUND US

QUALITY presents exclusive products, brands that are aware of tradition, brilliant ideas and the creative heads behind those efforts and lifestyles. QUALITY serves as a guide and representative of the things and people we admire and that inspire us. It is primarily all about quality and quality awareness. Products should keep the promises they made. And so should the people behind them. Lifestyle can be interesting and valuable. Exciting stories enlighten our lives and increase the joy of consuming.

QUALITY works with originals and the originary. No matter if it is everyday items or luxury goods - all objects have a history and a creator. These are the people we present while telling the hidden stories behind the story of a product. QUALITY

aims to stimulate the senses and to give insights into worlds which are not common but still belong to our daily lives. Our aim is to distinguish goods from mere products and to show that quality does not necessarily equal high prices. We want to convey what really matters. Quality is more important than luxury. With reports and commentaries, columns and graphic stories, contributions of famous writers and photographers as well as with exclusive interviews, we approach the essence of life: Quality.

WHAT WE WOULD LIKE TO SAY

Media planners and heads of marketing, buyers and sellers especially need one thing for selecting the right communication channels: good, solid and relevant arguments for strategy development.

Each media type has its very own strengths to contribute to the many ways of communication – so does QUALITY Magazine. It is all about the power of print and online, more precisely about the advertising in QUALITY.

We say: **Advertising in QUALITY has an intense, precise and sustainable effect.** We aim to prove this by presenting this collection of arguments which gives an overview of our many strengths.

ISSUES QUALITY 2021/22

January

IN TOUCH

In this winter issue, Quality deals with everything that not only looks special but also feels special. In the process, we have not only interpreted Keep in Touch proverbially. Fashion is perceived, felt and loved. New networks are created through collaborations between brands and people, and Keep in Touch suddenly takes on another dimension. Quality tracks down everything that has a special touch or makes an unexpected connection. And last but not least, the motto "in touch" by Quality is also part of value stability, so that we never lose touch: with what we love, what we value and decide what should be part of our environment and life. In addition to all the beautiful favourite pieces in our lives, new big themes such as sustainability, technology and innovation, but also art play a major role.

April

ECCLECTIC

Fashion is perhaps the strongest, but certainly the most visible way of expressing our personality. Mainstream is no longer the order of the day, on the contrary, the courage to combine, sometimes with a stylistic break and innovation, and to express this in one's own fashion style, is more trendy than ever. Vintage mixes successfully with brand new, wool with silk, delicate with robust in an almost unlimited variety. But appearances are deceptive. The seemingly randomly interwoven requires the greatest expertise. World-famous fashion designers test their own limits in this respect. Quality Eclectic is marked by fashion inspirations from the current spring-summer collection and shows the latest trends as well as individual fashion inspirations. Quality suggests individual fashion styles to its readers without losing sight of the most important thing, which is quality. Eclectic, however, is not only a term in fashion, but has also long been a treasured furnishing style for all interior designers. It seems to be an

almost impossible task within the large world of interior design to combine the right pieces and the right colours. Quality reaches into its large pool and presents new and old, individual and clean and curates the interior design world. When it comes to beauty and decorative make-up, too, much more is possible than first thought: the curved eyeliner from the eighties or even green or blue eye shadow? A no-go for some and totally hip for others. The Quality editors dig deep into the beauty colour palette. Eclectic also stands for upheaval, synthesis and recycling. The aspect of sustainability is presented to our readers in all departments of QUALITY. The way to more sustainability is found in the arrangement of new and old. That is why QUALITY goes in search of brands and people who live the courage to change. Be it fusion cuisine, vintage racing or Formula 1, this Quality will present many surprises and lead its readers into the exciting world of eclecticism.

June

SWITCH

Turn the key, start the engine, switch your mindset or turn and turn and change the world with it. What a wonderful thought. In mobility, our world is changing at breakneck speed and Quality is involved at all levels. What needs to be preserved, what needs to be changed and what visions should we be looking at right now? There is a lot of news to tell in the motorbike and automotive segment. But Quality is not only in the fast lane in terms of mobility, but also in terms of nutrition, where we need to take a close look at what's new, but also at what's old. Switch or no Switch, that is ultimately the decision of each individual. For Quality, Switch means pure enjoyment of life through responsibility without loss. Find out where you can best enjoy this pleasure in life in our travel special on the most beautiful destinations. After all, responsibility does not mean pleasure-free, nor does it stand for consumerism. So it is often the five-star destinations that demonstrate a sensitive approach to their surroundings with a great

deal of commitment. The opportunity to change, to pause or to consciously move forward is possible in every area of life and Quality presents a variety of options that span the entire spectrum of life. Our readers are spoilt for choice.

September

EYES WIDE SHUT

In the September issue, the editors focus on the most exciting eye catchers from the fields of fashion, beauty and art. Contradiction always attracts the most attention, therefore the motto of this issue is Eyes wide shut. So we take a particularly close look at brands and artists who all stand for one thing: Presence and individuality. Of course, a fashion issue also includes beauty, watches and jewelry, because it is always the overall picture that counts. Eyes wide shut symbolises the balancing act that we also want to show in this issue, namely being wide awake, turned towards and actively involved, but just as well closing our eyes, withdrawing, reflecting, in order to find the best consensus from precisely that. After all, we decide for ourselves what we love, what we value and what should be part of our environment. Quality provides the best inspiration for this.

QUALITY COVERCARD® Print & online for one price

With our exclusive covercard, we present the innovation of the year and are taking an important step towards digitalisation and consistent sustainability. The COVERCARD allows a modern way of distribution for our business partners and connects digital and printed media in a unique and innovative way for the first time.

How it works:

Instead of the magazine in print form, the customer encounters the COVERCARD in a store. Through scanning the QR-Code printed on the card, they can flip through the issue digitally, and can download the entire issue onto their mobile device after paying for it. After following a registration process, during which the user enters their postal or shipping address, they receive the latest issue of Quality magazine in print, delivered to their doorstep within 24 hours.

The covercard is an ecologically sustainable, modern and last but not least germ (and virus)-free alternative to the conventional sale of magazines. Storage costs, return shipping and the destruction of not sold issues are avoided by the completely digital sale and ordering process via smart phone. The neatly packed magazines are being delivered to the homes of the customers, while the digital issue of QUALITY is available while on the move and the printed one can be collected and kept neat easily.

QUALITY provides unseen behind the scenes footage and gives our readers the chance to explore, what makes certain objects special. By offering innovative recommendations, our readers become "insiders". Sophisticated, inquisitive readers communicate the knowledge they have gained seeking more than just mainstream and superficial topics. QUALITY readers are intrigued by interesting personalities and their achievements, but also on an emotional level. For QUALITY readers, quality is more important than luxury knowing very well that a high quality is the real luxury! Being able to recognize complex connections and to enjoy life to the fullest is part of the QUALITY-reader's profile.

QUALITY HAS AN IMPACT

MOTIVATION
Advertisements cause different reactions from their viewers. Some feel the desire for more information, others want to buy the product. Considering all of the expected reactions of ad viewers, 43 % feel motivated to get active. Every fifth viewer is inspired for the longer term or decides to buy the product. It is therefore safe to say, that print ads are an important and essential part of a campaign's success.

MAGAZINES HAVE A SOCIAL AUTHORITY
Votes for each statement in percent

SOCIAL AUTHORITY
QUALITY is sustainable generating depot effects. QUALITY stays in the household for a long time and people like displaying it, for example at the coffee table in the living room. This leads us to two remarkable findings about ads in lifestyle magazines: On the one hand, QUALITY acts like a status symbol standing for social authority, which is perfect to obtain a certain "high-quality effect" of the ads featured in the magazine. On the other hand, you get the opportunity to collect a lot more like-minded contacts by handing out or sharing the magazine with additional readers. Perfect, for the "high-quantity effect" of the featured ads.

Q WORLD

Our centrepiece, the **QUALITY** magazine, belongs to the Q World like a piece of a larger puzzle. New measures are being developed through modern communication, which we circumscribe under the label of “The New Dimession”, be it the QOOOL App or the Q Content Store in Berlin. The QUDOS Award for products, brands, innovations, that deserve to be honoured by an excellent jury, also belongs to Q World. With the “Q-One Club – The international Business & Lifestyle Club” a never seen before platform has been created. The Club is seeing itself following the tradition of diplomats like Charles Pictet de Rochemont. It adheres to the highest standards and is offering its members numerous ways to form it, which are tailored to each member and are available globally: networking, investments, lifestyle, luxury, and wellness. With the one-of-a-kind Q World, limitless possibilities present themselves, which go far beyond the customary magazine. Our readers and users will be picked up wherever they are and the Q World will become a true win concerning lust for life, information and lifestyle.

QUALITY ONLINE HAS AN IMPACT

CONFIDENCE ONLINE MAGAZINE

How much confidence there is between magazines and their German readers, is something that can be verified every day once again, considering their online use. Approx. one third of the most used, content-oriented websites are original internet offerings and more than a quarter of them are hosted by magazine brands. As a consequence, magazines are always in demand and very stable media brands – another perfect requirement for profound, long lasting advertising contacts.

USE OF ONLINE CONTENT

Base: content-oriented numbers; data in Mio. Unique Users

Source: AGOF internet facts 2014-06, Top 100 content-oriented offers by Unique Users; definition of content-oriented: own editorial content, no email portals, e-commerce offers, social media platforms, corporate sites or offers mainly

created by User Generated Content; assigned to the media according to the descent of established media brands of the respective genre.

GENERATION IPAD

New generations do not only attract young users. The average user is 46 years old and is characterized by an over-average income, which he/she also invests in the purchase of magazines for his/her iPad. Approx. two thirds of all iPad users read magazines on their devices.

QUALITY ONLINE – AT A GLANCE

WWW.QUALITY-MAGAZINE.CH WWW.QUALITY-MAGAZINE.DE

INTERNATIONAL COVERAGE IN 5 LANGUAGES

In addition to German, the online magazine will be presented in 4 other languages: English, French, Italian and Spanish. This is why the coverage of QUALITY online is tremendously high, especially among the country-specific readership. QUALITY manages to impress with the most beautiful and exciting things in life while transferring its intuition for fascinating stories and its sensitivity for unusual imagery as well as high standards also on its independent online platform.

FAST REPORTING

QUALITY online upholds the high standards of the popular print magazine regarding entertainment and lifestyle. In six categories, each of them with different subcategories, the online magazine reports about interesting news in the lifestyle-sector. With detailed stories and state-of-the-art photo shoots, QUALITY online represents a unique selling point in digital media which is the result of a fast and fact-based reporting.

CURRENT TOPICS

Within the category of Fashion, the readers can get an insight into selected fashion shoots and read appealing stories about exquisite brands. Not only brilliant products and their consumption play a significant role in QUALITY online, but also the creative minds behind those brands get a chance to speak out in our interviews. We tell the capturing stories about the way they live while focusing on unexpected curiosities.

SEO FOR OUR CLIENTS

By constantly working on our digital presence and on the Search Engine Optimization (SEO), QUALITY online has reached an ideal presence in digital media and occupies a very high position when it comes to search engine rankings.

PRINT & DIGITAL / COVERCARD

Print and digital are no longer independent variables, at least not at QUALITY. For us, both areas are equally relevant and the symbiose of both components leads the way to a new understanding of media and an important step towards a modern future. Therefore, QUALITY has created the world's first COVERCARD, which allows the reader to receive the digital and print issue simultaneously all in one price. QUALITY knows: As different as people are, so different are their reading habits. One rather read the magazine at home in their comfy chair, while the other going on the bus, prefers the digital version. Worlds overlap at times and at one time, the reader peruses the print issue, the next they use fast, digital information for entertainment without the weight of paper

in their hands. Furthermore, we introduced the mini-subscription at 1 Euro per 24 hours, which is ideal for short-time reading pleasures, for instance at the hairdressers. Through the connection between print and digital offers, QUALITY addresses different target groups in an innovative way and is giving a new coat of paint to the E-paper, while also giving it a new meaning.

Q CONTENT STORE

The newly developed Q Content Store is the beating heart of QUALITY. The entire national and international content is developed here. Lifestyle and quality will be experienced on an area of 1200 m² in an old warehouse located directly by the river Spree in Berlin. All of the media by the Global Q Media Cosmos, such as the print magazine QUALITY, the QUALITY online magazine, the content for our international licensing partners and also the content of the soon to be launched Q-App is created here.

All aspects of the special way of life are mirrored in 12 different editorial departments or resorts. QUALITY sets a high value on internationality, yet still wants to preserve a certain closeness to its readers or users. Therefore, the Q Content Store will be a permanent virtual accessible magazine to display texts, pictures, brands, products and host events in a completely

unprecedented way. The walk-in magazine presents a world of quality. Brands display their products in a cosmos created by QUALITY, in the form of generally valid topics that serve as a link between the brand and the magazine. The specifically created magazine world offers the opportunity to build a direct connection to art and communication.

A NEW MEDIA FORMAT

Events on a regular basis encourage the individual collaborations between brands that can empower and enhance each other. Excellent target groups become potential new customers especially while getting to know each other at extraordinary events. The idea of a walk-in magazine is unique and will generate a lot of attention just because of this fact.

- Virtual tours through the QUALITY cosmos are possible allowing the reader to

experience the products of his/her interest and also acquire them online with a simple click or fingertip
 - Media nights and discussions
 - Events with brands in variable, high-class settings
 - "Visit the Q Content Store" once a month

others combined with each individual brand profile equals a glamorous presentation. The brands and products are visible...

BERLIN & THE WORLD

¹⁹
57 While the world keeps turning, our cosmos keeps growing. Renaissance and innovation, radical changes and renovation are empowering our senses and stimulate our work. Some don't make any progress even though they follow the motto "higher, faster, further". We, on the other hand, keep the focus on quality but manage to reinvent ourselves every single time. If you in fact think that QUALITY's conquest of the international magazine market only began a decade ago, you are very wrong. The story of QUALITY is older than you might think! Global Q Media owns the rights of the title which appears in the movie. Consequently, it belongs to the oldest Lifestyle magazines worldwide. While others celebrate 50 or 100 years, we bet on the number 63! Because in 1957, QUALITY saw the light of day for the first time alongside no one less than Audrey Hepburn. In a movie about the magazine, she sings and dances herself into the hearts of the viewers and on the cover of QUALITY with Fred Astaire by her side. It is with pride that we look back to our roots.

The times that lie ahead of us are every bit as exciting as those that lie behind the magazine focusing on the sophisticated lifestyle. As one of the few magazines that consistently addresses both female and male readers equally, today QUALITY acts more global than ever before. Twelve delightful resorts, all of them full of well-researched stories, extravagant photo productions and entertaining news, form the diverse QUALITY-Cosmos. However, the particular topics are not isolated from the others, but put in complex contexts at all times. Which handbag goes best with a Bentley? Which gadgets are not only state-of-the-art technology but also convince us with special aesthetics? Which restaurant is an obligatory visit on a trip to New York? QUALITY builds bridges between the different aspects that build a classy lifestyle strengthening its relevance on the international lifestyle-market. A long and exciting history lies behind QUALITY, the future starts now. It is being written right now. Online, offline, in German, in English and by using a language that will last for much longer than 63 years. Because QUALITY is timeless!
